

EXCEL

SCORECARD™

"Your ability to bring out the best we can be is just one of the many positives I can see as we take our team to the next level." - Dick Schilhab, General Manager, Transit Mix

EXCEL SCORECARD

Discover what's really going on in your team and automate feedback on ineffective behavior patterns.

GIVING AND RECEIVING FEEDBACK IS TOUGH

Most people don't get consistent feedback on their behavior, causing individuals and organizations to learn and improve slowly and sporadically, if at all.

LEVERAGE A BEHAVIORAL SCORECARD FOR LEADERS AND TEAMS

Our *EXCEL Scorecard* system is a web-based, confidential, automated feedback tool. It allows participants to easily receive quantitative and qualitative feedback on their behavior in a concise report, delivered directly to their inbox. The scorecard takes less than five minutes to complete and the questions are customizable to your organization's values and initiatives. Results can be sorted across the organization to identify group and individual hot spots, and the scorecard includes the ability to track results over time.

Outcomes:

- Obtain consistent, confidential, and relevant behavioral feedback from peers.
- Greatly enhance self-awareness on crucial work behaviors and attitudes.
- Generate feedback on company-specific issues with customized questions.
- Track individuals' progress over time.
- Access group results that can be filtered and sorted to identify top scorers as well as those needing further assistance.
- Distribute individual *EXCEL Scorecard* reports to colleagues with the click of a button.
- Utilize a fully automated system that minimizes administration time and ensures confidentiality.
