A Foundation for Building High Performing Schools

What Are the Five Key Indicators of School Performance?

1. Student Achievement
2. Discipline Referrals
3. Attendance Rates
4. Graduation Rates
5. Teacher Satisfaction

How Do I Improve These Indicators?

- Passing More Legislation
- Setting Higher Standards
- Adding New Levels of Academic Rigor
- Analyzing More Data
- Holding Teachers Accountable
- More Student Testing

REALITY CHECK

While all of these actions are critical, research studies show that these actions alone will not improve the five key indicators of school performance.

Groundbreaking Research Demonstrates

High Performing Schools are Distinguished by Exceptional Culture and Climate
